

ACPNJ Call for Abstracts

Contact information for questions: Dr. Theresa Barrett - theresa@acpnj.org

The American College of Physicians New Jersey Chapter is issuing a call for abstracts to be considered for inclusion at the 2021 Scientific Meeting. Please see below for requirements and details.

Author Eligibility:

All primary authors must be either an ACP Resident or Medical Student Members in good standing and be enrolled in a New Jersey residency program or New Jersey medical school to submit an abstract.

Please note that if the primary author has graduated from their residency program at the time of the Oral / Poster Presentation, the primary author will be unable to present at the meeting however a second resident/student author on the abstract will be eligible to present in their place. (For example, if a research project was started by a resident in their third year but that research was not completed and left to be completed and submitted by a remaining more junior resident in the program, the graduated resident will be ineligible to present however a second resident/student author on the abstract will be eligible to present in their place.)

Primary authors are limited to two (2) submissions. The primary or secondary author of any chosen abstract must be prepared to present that abstract as a poster at the ACPNJ Scientific Meeting on March 12, 2021 at the Marriott Princeton Forrestal, Princeton, NJ.

Abstract Eligibility:

Original abstracts that either have or have not been presented at other meetings will be considered. Abstracts previously submitted to either the ACPNJ Scientific Meeting or the National Meeting are not eligible and are subject to disqualification. Presentation of original work at an ACP meeting may, however, jeopardize presentation before another society meeting. Please check with other society rules and regulations. Abstracts are eligible if the abstract has been published; however, abstracts based upon full papers that have been published are not eligible.

Deadline for Submission:

Abstracts must be submitted through the portal. The deadline to submit an abstract for both the 2019 Resident/Fellow Members and Medical Students Members is Monday, November 23, 2020 at 11:59 PM EST.

Word Limit:

The electronic abstract system will accept approximately 450 words. If you go over the limit, your abstract will remain in draft status and will not be submitted to the competition. Please

note, the word limit **does not** include the title and co-authors. Titles and co-authors are listed in separate fields. **References are not required**; however, please note that if included, references are counted toward the 450-word limit.

Do not put the abstract title or authors into the abstract text box. Please enter that information in the appropriate fields.

Abstract titles should be submitted with initial capitals and lower-case text (This is How a Title Should Appear)

Categories and Definitions:

Abstracts may be submitted under one of the following categories:

Clinical Vignette - a report of one or more cases that illustrates a new disease entity, or a prominent or unusual clinical feature of an established disease. It may include a summary of pertinent patient history, physical findings, laboratory data, or management description.

Clinical Research - Patient-oriented research conducted with human subjects (or on material of human origin) for which an investigator (or colleague) directly interacts with human subjects. This area of research includes: mechanisms of human disease; therapeutic interventions; clinical trials; development of new technologies; analysis of existing datasets; epidemiologic and behavioral studies; outcomes research and health services research.

Quality Improvement-Patient Safety - Submissions can report on efforts to improve patient safety or outcomes measurement. Such efforts may be projects developed and initiated to promote patient safety and/or processes that have improved or created a safer environment for patients. Abstracts may also be submitted that relate to the use of outcome data, how to measure and convert data into information.

Abstract Selection and Notification:

All submissions will be reviewed and considered for Poster Presentations or Oral Presentations to be held at the ACPNJ Scientific Meeting on Friday, March 12, 2021.

Poster Presentations:

The highest scoring abstracts from the initial review will be invited to participate in a Poster Presentation competition at the 2021 Scientific Meeting. The highest scoring Poster Presentations will be recognized at the meeting.

Oral Presentations:

The top four highest scoring abstracts from the initial review will be invited to participate in an Oral Presentation competition at the Scientific Meeting. The highest scoring Oral Presentation will be recognized at the meeting.

Additionally, the abstract of the winner from the oral competition at the NJ Chapter Scientific Meeting will be invited to the National ACP abstract competition at Internal Medicine Meeting 2022.

Authors chosen for presentation at the national competition will receive further information on attendance. Only first authors will be invited to present. If the first author cannot attend, (e.g. due to graduation, etc.) the second or third author resident/student on the abstract may present.

If your abstract is accepted for poster or oral presentation at the 2021 NJ ACP Scientific Meeting, you will be notified by the end of January 2020. (See **Abstract Timeline** below).

Abstract Timeline:

Key Activity	Date/Time Period
Abstracts Portal Opens	September 30, 2020
Deadline for Submission	Monday, November 23, 2020 @ 11:59pm
Abstract Review Period	November 2020 – January 2021
Results Notification	Late January 2021
ACPNJ Scientific Meeting	March 12, 2021
